

## PATHWAYS FOR CONFIRMATION OF PREREQUISITE UNIT SKILLS AND KNOWLEDGE

The unit UETTDRCJ21A Lay ESI electrical cables has the following prerequisite units.

- UEENEEE101A Apply Occupational Health Safety regulations, codes and practices in the workplace
- UEENEEE107A Use drawings, diagrams, schedules, standards, codes and specifications
- UETTDREL11A Apply sustainable energy and environmental procedures
- UETTDREL16A Working safely near live electrical apparatus

*Note: Prerequisite units are units where an individual must be confirmed as having the skills and knowledge for those units, before being issued with a nationally recognised Statement of Attainment (certificate) for UETTDRCJ21A Lay ESI electrical cables.*

Two pathways are available for an individual to be confirmed as having the skills and knowledge for the prerequisite units.

1. Skills recognition.

The individual demonstrates they have the skills and knowledge for the prerequisite units by presenting evidence for the units.

2. Training.

If evidence cannot be presented to confirm skills and knowledge for the prerequisite units, then an individual can undertake training for the units.

These pathways are described on the following pages.

## SKILLS RECOGNITION PATHWAY

Item	Unit	Evidence required for confirmation of prerequisite unit skills and knowledge	Comments
1.	UEENEEE101A Apply Occupational Health Safety regulations, codes and practices in the workplace	<p>Current Electrical Workers Licence. or White Card/Blue Card Construction Induction, and</p> <ul style="list-style-type: none"> <li>• a copy of the company's safety &amp; health policy and objectives</li> <li>• a copy of completed safety meeting minutes</li> <li>• a copy of a safety bulletin relevant to the workplace</li> <li>• 2 x copies of safety instructions relevant to the workplace</li> <li>• 2 x copies of completed risk assessment tools e.g. JSA/JHA/JRA etc</li> <li>• 2 x copies of completed inspection sheets</li> <li>• 4 x photos or a video of working safely in the workplace</li> </ul>	<p>Safety meeting minutes must show the individual on the minutes.</p> <p>Completed inspection sheets can be:</p> <ul style="list-style-type: none"> <li>• PPE</li> <li>• safety harness</li> <li>• plant, equipment or tools</li> </ul> <p>Photos/video presented must clearly show the individual. working safely in the workplace.</p>
2.	UEENEEE107A Use drawings, diagrams, schedules, standards, codes and specifications	<p>Current Electrical Workers Licence. or Evidence of:</p> <ul style="list-style-type: none"> <li>• 2 x drawings or diagrams used in the workplace.</li> <li>• 2 x manuals or standards or codes or instructions used in the workplace.</li> </ul>	<p>Evidence presented must describe how drawings, diagrams, schedules, standards, codes and specifications were used in the workplace to complete the work.</p>
3.	UETTDREL11A Apply sustainable energy and environmental procedures	<p>A copy of nationally recognised certificate (Statement of Attainment) for the unit UETTDREL11A Apply sustainable energy and environmental procedures. or</p> <ul style="list-style-type: none"> <li>• a copy of the company's environmental policy, objectives and instructions</li> <li>• description of two good environmental practices used in the workplace</li> <li>• 2 x photos of good environmental initiatives/practices in the workplace</li> <li>• 2 x examples of how current environmental practices can be improved in the workplace</li> </ul>	<p>Good environmental practices can be:</p> <ul style="list-style-type: none"> <li>• recycling</li> <li>• reducing electricity usage</li> <li>• reducing waste</li> <li>• storage of hazardous materials</li> </ul>
4.	UETTDREL16A Working safely near live electrical apparatus	<p>Nationally recognised certificate (Statement of Attainment) for the unit UETTDREL16A Working safely near live electrical apparatus. or</p> <ul style="list-style-type: none"> <li>• a copy of the companies/network operator's Safe Approach Distances</li> <li>• 2 x completed risk assessment tools e.g. JSA/JHA/JRA etc, related to working safely near live electrical apparatus</li> <li>• 2 x completed permits related to working safely near live electrical apparatus.</li> <li>• 4 x photos or a video of working safely near live electrical apparatus</li> </ul>	<p>Photos/video presented must clearly show the individual. working safely near live electrical apparatus.</p>

**Note:**

The evidence presented for assessment must be 'current' i.e. in the last 12-months.

The above evidence is to be submitted with the on-the-job training workbook.

## TRAINING PATHWAY
